

UPDATE TO GYM MEMBERS

Dear Members,

We are excited to announce that we are in the process of arranging a complete refresh and upgrade of the gym equipment. The current equipment has been in place for almost 10 years and as you will have noticed, some repairs have recently been necessary. The new equipment will be a significant improvement on the equipment currently in place.

We will be able to give you more details shortly, including details of any familiarisation which may be necessary.

As part of the upgrade, we have installed a CCTV camera system within the gym itself. This will not cover any of the changing facilities. We have been advised that as the gym is not manned or supervised, the recordings from the CCTV system will enable us to investigate any instances of misuse or unsafe use of the gym equipment and to provide an enhanced level of security and reassurance for gym members themselves. The CCTV system will not be used for live monitoring.

Our Privacy Statement has been updated to reflect the use of CCTV recording within the gym and a copy has been posted on the Gym page of the Public Hall website. You will also notice some signs which will alert everyone to the CCTV recording equipment.

If you have any questions or concerns about the new arrangements, please get in touch and we will do our best to answer them for you.
